Education

B.Tech Computer Science & Engineering (AIML), Sandip University, Nashik. Division A. Academic year 2026-27.

Achievement

Team Leader, NASA International Space Apps Challenge 2025 (36-hour global hackathon, 4-5 Oct 2025, Sandip University, Nashik). Certificate of Appreciation.

Projects

Rule-Based Medical Diagnosis Expert System: IF-THEN knowledge base, forward-chaining inference engine and explanation module.

Car Sales Excel Dashboard: cleaned 1,040 raw rows to 978 records; pivot tables, 6 linked charts, filter-driven KPIs, insights sheet.

BFS Social Network Connection Finder: shortest-path finder tested on graphs up to 100,000 users; bidirectional BFS 99.6% fewer node expansions.

Smart Dustbin: Arduino UNO, HC-SR04 ultrasonic sensor and servo for a touch-free lid.

Skills

Python, C/C++ (Arduino), HTML, CSS, JavaScript, Excel, Git and GitHub, Vercel, data cleaning, graph algorithms, expert systems.
